**CONFIGURESOFT AND ENTERPRISE MANAGEMENT ASSOCIATES HOST  
WEBINAR OUTLINING BEST PRACTICES FOR SECURING VIRTUALIZATION  
ENVIRONMENTS**

*Configuresoft CTO Dr. Dennis Moreau and EMA Senior Analyst Andi Mann Address the Security and Compliance Complexity Introduced By Virtualization Deployments*

**COLORADO SPRINGS, CO — June 14, 2007** — Configuresoft, an innovator in systems management technology and the creator of enterprise Configuration Intelligence™, today announced that Configuresoft CTO Dr. Dennis Moreau and Enterprise Management Associates Senior Analyst Andi Mann will host a free educational webinar titled “Securing Virtualization Environments.” The virtualization experts will discuss best practices and real-world examples of strategies used to manage and secure virtualized environments.

Virtualization technologies hold the promise of lower operating costs, improved agility and availability for enterprise computing. However, virtualization also introduces new complexities and security risks. There is a need for greater visibility into the state of physical (host) and virtual (guest) servers across an organization’s infrastructure in order to ensure their security and compliance posture.

Webinar attendees will learn:

- The latest industry statistics on application and platform virtualization
- The major drivers and barriers to virtualization adoption
- Techniques and approaches for overcoming those barriers

**What:** “Securing Complex Virtualization Environments”

**Who:** Andi Mann, senior analyst, Enterprise Management Associates  
Dr. Dennis Moreau, CTO, Configuresoft

**When:** Tuesday, June 19, 2007, 11:00 a.m. EDT

**To Register:** [http://www.configuresoft.com/webinar\\_registration\\_web.aspx](http://www.configuresoft.com/webinar_registration_web.aspx)

Configuresoft, an industry leader in the pursuit of virtualization security standards, co-chairs the CIS benchmark for virtual machine security. For more information about Configuresoft’s virtualization solutions please visit: [http://www.configuresoft.com/systems\\_management.aspx](http://www.configuresoft.com/systems_management.aspx)

Additionally, Dr. Moreau shares his insight into the key factors in evaluating the configuration management gap between your virtualization approach and today’s IT infrastructure in his podcast series IT Infrastructure Insider. To listen, please visit: <http://www.configuresoft.com/podcasts.aspx>

**About Configuresoft**

Configuresoft is an innovator in systems management technology, delivering the enterprise Configuration Intelligence™ to effectively and efficiently manage today's heterogeneous computing infrastructures. Spanning both security and operations, the Company's configuration management, compliance and remediation products are used by 12 of the world's 25 largest companies to keep their critical systems properly configured, while ensuring compliance with regulatory requirements such as Sarbanes-Oxley, FISMA, GLBA, Basel II, HIPAA and DISA, and industry standards such as ISO 27001, PCI DSS and Microsoft Security Hardening Guides. To contact Configuresoft, please call (888) U-CONFIG or visit [www.configuresoft.com](http://www.configuresoft.com).
